Beginner Zulu Video Series (8 parts)

Many of the interactions that we experience as we go through our day are predictable, repetitive and of a short duration. These simple encounters provide us with an opportunity to speak isiZulu in manageable doses on a regular basis. ZuluMites has selected eight typical daily encounters and designed a course that equips the participants to engage with isiZulu speakers from the first session.

This is a great foundation or refresher course for beginners - covering basic grammar structures that will be helpful in your ongoing study of the language - and is an essential course for any parent responsible for their own child's Zulu learning.

The course is delivered online via a restricted login to our MEMBERS only page, which will include personalised login details and 3-months access to this exclusive video content. Each video lesson also includes downloadable notes and extension activities for ongoing practice.

The series will cover the following:

1. **Sawubona (Hello)** - Basic greetings and sentence construction
2. **Ngubani? (Who are you?)** - Personal introductions and introducing possession
3. **Uyaphi? (Where are you going?)** – Closer look at question word “where?”
4. **Ngicela (Please)** – Asking for things, and the conjunction ‘and’
5. **Khuluma (Speak)** – Discussing your Zulu ability using ‘little’ and ‘a lot’, and negatives
6. **Ukhona (He is here)** – Asking where someone is or takes place; and place indicators
7. **ukuPheka (To cook)** – The infinitive “to” in a sentence
8. **Kodwa (But)** – How to use basic conjunctions ‘but’, ‘because’, ‘for’ and ‘also’

Cost: R600 per person, paid upfront for the full 8 weeks.
